

ABT Global, Inc

A Global Documents Communications Company

CLIENT:

Methodist Hospital
6565 Fannin Street
Houston, TX 77030

APPLICATION:

Lab Reports & Patient Accounting

Client Profile:

A member of the Methodist Hospital System in Houston, TX, The Methodist Hospital is a nonprofit healthcare institution that works in conjunction with Weill Medical College. Methodist Hospital is a private healthcare institution known for advanced research and innovative procedures. Their mission statement is, "To provide high quality, cost-effective health care that delivers the best value to the people we serve in a spiritual environment of caring in association with internationally recognized teaching and research."

Business Need:

The medical industry thrives upon the opportunity to provide efficient and top quality care to their patients. One of the advantages that The Methodist Hospital has over their competitors is their ability to have all patient records accessible to doctors and other medical staff anytime and anywhere in a secure HIPAA compliant format, in order to ensure that their patients are receiving nothing but the best when it comes to healthcare.

WebXpress Benefits:

1. "Zero Resource" implementation of a HIPAA compliant ASP solution in which doctors and other medical staff are able to securely access patient records from any internet access capable location.
2. Immediate cash savings realized by implementing an outsourced solution with WebXpress versus an internal development effort projected to cost in excess of several hundred thousand dollars.
3. Redirect capital funds earmarked for in-house imaging system development toward purchase of critical medical treatment and diagnostic assets.

Client Comments:

WebXpress is user friendly and required no User training. It puts the right information into the hands of the people that are authorized, authenticated and permissioned to access and view from any where internet access is available. The WebXpress implementation was transparent to departmental users, management and IT staff.
