

ABT Global, Inc

A Global Documents Communications Company

CLIENT:

**Radio Flyer Inc.
6515 West Grand Avenue
Chicago, Illinois 60707**

APPLICATION:

Accounts Receivable

Client Profile:

In 1917, the Statue of Liberty welcomed 16 year old Antonio Pasin to the land of opportunity. With little more than a few coins in his pocket, this Old World Craftsman stepped off the boat from Italy with his head full of dreams and his feet firmly planted on the ground.

Inspired by the statue of dreams that had welcomed him, the Liberty Coaster Company was born, a legacy that has endured through 85 years and three generations of the Pasin family, becoming today's Radio Flyer. From the original Liberty Coaster wagon at the turn of the century to the popular All-Terrain wagons of today, the "little red wagon" has both inspired dreams and nurtured the wonders of childhood. Antonio's passion for craftsmanship is still reflected in the care with which each Radio Flyer product is designed and produced to this day.

Business Need:

Chicago-AP) -- Chicago-based Radio Flyer Incorporated says it is moving production of the little red wagons to China. The 87-year-old company says it will keep its headquarters and distribution business in Chicago.

The company says it's moving its manufacturing operation because the plant where the metal wagons are built is too expensive to maintain. Coordinating its Accounting system across continents is a strategic project focus. The need to securely share all AR documents on a global basis is needed to insure a seamless process between headquarters in Chicago and production in China.

WebXpress Benefits:

The client was able to implement a short term solution that might otherwise have taken 12 to 24 months to implement diverted valuable Accounting and IS resources that are currently deployed on core corporate projects.

1. The savings to the company by implementing an outsourced solution with WebXpress versus an immediate internal development was several hundred thousand dollars.
2. Internal administrative and marketing efficiencies were realized Immediately.
3. Customer service was improved by brokers' ability to immediately access client statements and discuss status and strategy with their clients.

Client Comments:

WebXpress puts the right information into the hands of the people that are authorized, authenticated and permissioned to access and view it on a global basis utilizing the ubiquity of the Internet and any web browser.

Although Radio Flyer operates in different continents they enjoy a virtual file cabinet solution that provides a seamless and fluid Accounts Receivable process in a secure environment with zero workstation impact and zero staff resource allocation during the implementation process.
